Who We Are

About Us

The Society of Hispanic Engineering and Science Students (SHESS) is a recognized professional organization within the College of Engineering, Computer Science and Technology at California State University, Los Angeles.

SHESS has maintained its original commitment to assist undergraduate and graduate students in Science, Technology, Engineering, and Math (STEM) from our university so they become innovative professionals and leaders!

**SOCIETY OF
HISPANIC
ENGINEERING
AND SCIENCE
STUDENTS**

History

The Society of Hispanic Professional Engineers (SHPE) was founded in Los Angeles, California, 1974 by a group of engineers employed by the city of Los Angeles. SHESS Cal State LA was one of the founding chapters for the Society of Hispanic Professional Engineers (SHPE). We have maintained our original name as the Society of Hispanic Engineers and Science Students (SHESS). Our student chapter embodies the following principles, **“Commit to Excellence and Engage in Community”** through collaboration and effective use of resources on our campus and within our community. We have a long tradition of developing and training the next generation of innovative STEM professionals and leaders.

Purpose

- ✓ Increase the number of Hispanics and minorities entering the field of Science, Technology, Engineering, and Math (STEM)
- ✓ Develop and implement programs benefiting students seeking to become engineers and scientists at California State University, Los Angeles (Cal State LA)
- ✓ Provide resources for engineering and science students in education, employment, economic and social well-being
- ✓ Improve the quality of education and training programs preparing students to become professional engineers and scientists

Mission

“To promote the development of Hispanic in Engineering, math and science related fields.”

Also to promote the academic and professional advancement, to achieve educational excellence, economic opportunity, and social equality; and providing and improving the environment in which students work and study as well as introduce the students to professionals and the corporate world.
